

ECOPORTAL

Nicola Fiore

LIFEWATCH ERIC

Background

In the last decade, ecological research groups and infrastructures have contributed to the definition and the production of core and domain ontologies as well as of thesauri and domain-relevant reference lists (OBOE, SERONTO, EnvThes, LifeWatch Thesauri, etc.)

EcoPortal Main Goal

**Support the community in the
management and integration of the
different semantic approaches
in the ecological domain**

What is EcoPortal

EcoPortal is a space to collect semantic resources.

**It provide the needed services for enabling discovery,
interoperability and curation**

How to reach EcoPortal
